NEW MOVIE STUNT ON

Public Invited to See War Film in Making-Ball Game To-day.

These days are so abundant in rense to THE SUN Tobacco Fund that makes difficult the telling of the many actors that have become contributory parts of it. Much has been accomplished : that is told in the total, which this morning is \$56,674.32. There is more in the present, and new vistas of augmentation are opened up for the

When an enterprise under fund patrenage goes through to success—there have been no failures thus far, we may remark as we knock wood—it develops the inclination for self-congratulation. The last week has fed generously to this tendency. It has been a period of fine achievement, of widespread apprecia-

Perhaps nothing is more indicative of our progress than the recognition we have gained in all circles. Only a few days ago Mrs. Woodrow Wilson accorded her gracious help in contributing for our benefit in Marcus Loew's New York Theatre and Roof a hand embroidered handkerchief with her card from the White House.

This morning we have gained further favor in high places. Governor Whitman sends to the fund not only his heartiest good wishes but also \$10. With these two distinguished personages back of use we take a unique place among assessment funds.

Now to look ahead a bit. Here is a form of entertainment and instruction that is new to the general New York public. Opportunity is to be given for the great army of movie fans of the town to get behind the scenes of one of the most notable pictures of the year, "Lest We Forget," in which Rita Jolivet is starring.

Mass Jolivet had attained dramatic success before this U-boat outrage carried her name round the world. Since her return to this country with her husband, Count Guseppe Cippico, an Italian nobleman, she has contributed her talents exclusively to the screen field: J. Fhelan, catcher; G. Baughan, The bicture planned for her next appearance is contemplated to make the top point in her career.

"Lest We Forget" it is to be called, and it has a war setting. The biggest seemes of the production will show the invasion by the German gray hordes into a Beigian village and the subsequent destruction of the town. Times alter customs. Presently the name of this fine old annual event, which so many Brooklyn and New York housekeepers know because of its beautiful wares and great savings, will have to be changed to "the Autumn Sale of Porcelain." These are in open stock and closed patterns; of unusually fine quality and in beautiful designs.

Of course, there is China, too-both English and French
